Enviro-Coat Rust Resister

INTERIOR RUST & CORROSION PROTECTION FOR MILD STEEL TANKS

Principle Uses *Enviro-Coat* is formulated to inhibit the formation of rust & corrosion on the interior of mild steel storage tanks used in the fertilizer industry. It floats on the top of the fertilizer and forms a protective coating on the inside of the tank.

- Product Benefits**
- Extends the life of new & old tanks
 - Can be reused season after season
 - Not a paint or fuel oil
 - Forms a protective coating
 - Reduces rust flakes
 - Will not emulsify
 - Floats on top of fertilizer
 - Environmentally safe, will not harm crops

Treatment Usage *Enviro-Coat* should be used at a 1/8" layer and replenished at 1/4 the initial amount annually. Use the amount shown in the table below. It can be used on all liquid fertilizer and suspensions (not aqua ammonia or highly corrosive or acid fertilizers). Test product for compatibility prior to use.

DIAMETER VERT. TANK	GAL. FOR 1/8" LAYER	DIAMETER VERT. TANK	GAL. FOR 1/8" LAYER	DIAMETER VERT. TANK	GAL. FOR 1/8" LAYER
8'	4	14'	12	24'	35
9'	5	16'	16	26'	41
10'	6	18'	20	28'	48
11'	7	20'	25	30'	55
12'	9	22'	30	32'	63

General Description

- | | |
|--------------------------------------|---|
| Color... Clear Amber liquid | Odor... Bland |
| Density... 7.4 lbs/gal (Calc) | Specific Gravity... .89 (Calc) |
| Pour Point... Not Determined | pH... Not Applicable |
| Flash Point... >350° F | Solubility... Not soluble in water |

Safety & Handling

Material is an eye, skin & inhalation irritant. Avoid getting material on you or in you. Wash hands after handling material. Do not eat or drink while handling material. Remove any contaminated clothing and wash before reuse. Wear gloves and other protective clothing when handling material. Do not inhale mists or vapors. Refer to Material Safety Data sheet for additional information.

Shipping

Enviro-Coat is shipped in 5 Gal pails, 55 Gal drums or bulk.

Remarks

If you need assistance or information, contact *EnviroPac, Inc.* at 800/752-1414.
